

## Health IT Wins!

Delivered to your door...

**WIN!:** Access to Patient Information through IHIN Clinical Portal

**Who:** Medicap Pharmacist & Patient

**When:** Week of March 21, 2016

**Where:** Medicap Pharmacy

**Why:** To obtain patient information to help provide a Medicare Part D Comprehensive Medication Review

**What:** We found very helpful patient medical information such as medication list (including meds we didn't fill and weren't aware of), active condition/problem list, most recent vital signs and immunization list with plan of care.

**Benefits:** This information helped us have a more complete picture of the patient's medical status & provide better clinical services & recommendations. It also saved us & the provider time as we didn't have to call for information.
